1 Welcome to LaTeX

This is a simple report template with the the M2I Logo, course and project information. Modify it to practice with LaTeX formating. Variables that can be altered have been commented to make them easier to spot. For example if you need to change the M2I Logo, look for the comment `% M2I Logo Here` in this file and then make appropriate modifications in that line.

A Table of Contents and a bibliography have also been implemented. To add entries to your bibliography, simply edit `biblist.bib` in the root folder and then use the `\cite{...}` command in `main.tex` [1]. Look in the table of contents for a link that will assist you with this. The Table of Contents will be updated automatically at the end of the document.

The bibliography can be the most difficult portion of LaTeX to grasp so if you have questions email me and I can try and help you over email or in person. Everything else should be fairly intuitive to learn.

— Vince
